

**In the Specification**

Please amend the paragraph beginning on page 3, line 10 of the application as originally filed (Paragraph [0015] of U.S. Patent Application Publication No. 20070000803) as follows:

[0015] Referring first to FIG. 1, therein is illustrated a package 10 that is a stacked array 30 of trays for articles having a cover 20 in accordance with a preferred embodiment of the invention. ~~Referred~~ing now also to FIG. 2, the package 10 of FIG. 1 is shown in upright condition with the individual trays 32 joined along a spine 33 partially fanned like the pages of a book about their region of common joinder that is, the spine 33. In FIG. 2, the elements of the cover 20 can be seen. The cover 20 has a front portion 23 and back portion ~~24/26~~ 29 joined by a spine 28. The back portion 29 has one portion, a back cover portion, 24 that is affixed by adherence or other means to the bottom, or base, tray 34 of the array 30 of trays beyond a line of joinder or hinge line 25 that is offset from the line of joinder or hinge line 27 that hingedly adjoins the cover spine 28 to the back ~~cover 24/26~~ portion 29. A strip 26 completes the back portion 29 of the cover 20. The strip 26 is shown and noted to be fairly narrow in the preferred embodiment illustrated but the width may vary. The narrower the strip 26, the wider ~~the remainder of the back~~ cover portion 24 of the cover 20. The wider the back cover portion 24 that is adhered to the bottom/base tray, the more firmly affixed is the back portion to the bottom/base tray 34.
